

SHADOW PUPPET EDU

Overview

Shadow Puppet Edu is a free video making app made specifically for the classroom. Students of all ages can easily use and explore this app. It was made to provide a more creative digital storytelling, but can also be used for presentations. You create a slideshow, then voiceover it.

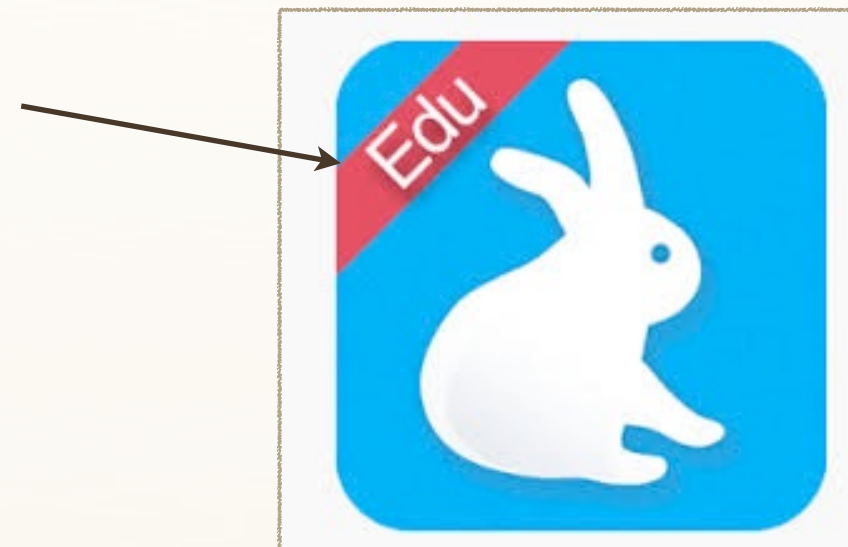

FEATURES

- ❖ *The ability to put in videos, emojis, pictures, gifs, and music on each slide.*
- ❖ *Easy to navigate*
- ❖ *In-app search bars of Flickr, NASA, Libraries, ect. without having to leave the app*
- ❖ *Straightforward*
- ❖ *Free!!*
- ❖ *Comes with tons of ideas*

HISTORY

Shadow Puppet Edu is an app made by Seesaw Learning Inc. They first had an app just called Shadow Puppet, but made another variation of the app with the Edu added, specifically with new features made for teachers and students.

SAMR

I would give this app on the SAMR scale an **M** for modification of previous technologies. It is transformative in the ways it can be used. It can also easily be shared and presented to others through iCloud, Twitter, FaceBook, Youtube, and Email. Everything you do once hitting record, like drawing, speaking, and zooming in on pictures is added to the video.

REDEFINITION

MODIFICATION

AUGMENTATION

SUBSTITUTION

GREAT FOR...

- ❖ *Students that prefer not to read stories out loud to the class: this app would eliminate the fear some people have about presenting.*
- ❖ *ELLs: reading aloud can help with the learning of English. Pictures are universal and may help get points across.*
- ❖ *Visual and audio learners: the pictures can help people who need to see things to understand, and the fact that there is a voiceover playing can help people who need to hear things.*
- ❖ *Students who may physically or mentally have a hard time writing: Some students may find that just casually speaking into a microphone instead of sitting down and writing is easier. Also some students may not be able to physically write, so this is an easy solution.*
- ❖ *A new way to present!: this app is just creative and fun to use.*
